

St. Croix County is offering radon testing kits. Short term test kits can be purchased for \$10 from St. Croix County Public Health. All testing and lab fees are included in cost of the kit. Kits are available at:

- St. Croix County Government Center - 1101 Carmichael Rd, Hudson WI
- St. Croix County Services Center - 1752 Dorset Ln, New Richmond WI

Radon exposure is the second leading cause of lung cancer nation-wide, causing about 21,000 deaths per year in the U.S. and about 500 deaths per year in Wisconsin. Radon has no smell, taste, or color. While you can't see or smell it, you can protect yourself from radon. It can be easily measured with a simple and inexpensive test that homeowners can do themselves.

The full press release can be found on the St. Croix County website:
